Wonderful Monty, sounds great! Works out well anyway, since I anticipate being pretty swamped until about mid-next week.

Also, wanted to let you know that I won't be able to come to the Aug 26 public meeting. However, if it would be okay, I'd be interested in trying to come to the Oct 1 public meeting. If possible, I would also like to bring along with me Shannon Synder. I believe Becky met Shannon during the May RTAG/WQS meeting. Shannon joined our EPA R6 WQS team several months ago. Although not new to EPA (she worked for over 10 years in the air program), she's relatively new to the WQS program. Attending the Oct 1 meeting would present a good WQS learning opportunity for her. Please let me know if that'd be alright for the two of us to come. If so, next week I'll start the process of talking with Shannon, getting Phil Crocker's (our supervisor) okay to travel, and making travel plans.

Hope you have a great afternoon, and talk with y'all soon!

Hi, Melinda! Spoke to Derek about sharing the SWS language. We have several scheduled meetings on Thursday and Friday with the Water Reuse External Workgroup, and part of their agenda is to discuss the recommended standards language. After those meetings, we should hopefully have a much better idea of what the language will look like, and I should be able to pass it on to you by middle of next week (hopefully). Monty

Hi Becky,

Hope your vacation was wonderful!! (You went out of country, right?) Welcome Back!!

Monty and I touched base last Wed (8/5), and I mentioned to him then that I hoped to review the ALC calculations early this week. However, on Friday (8/7), I was pulled into the response effort for the Gold King mine spill to the Animas and San Juan Rivers (CO/NM), and today is my first day back to my regular duties. I'm going through emails today and prioritizing my work. I apologize for the delay and know you need ALC input as soon as possible. Would it be okay if I get back to you by COB Monday (8/17) on the ALC calculations? (This would give you ~1.5 weeks to process any input I may have before your 8/26 public meeting.)

Also, we have an OWRB/EPA recurring call scheduled for next Wed. (8/19). Perhaps we can use the recurring call time to discuss whatever ALC input I plan to share with you on Monday, as well as the status of the SWS proposal. (I may not have a lot of new input on the SWS proposal since I haven't seen any draft language yet, but would love to hear an update.)

Thanks!

Melinda
